

# ⚡ RHETT'S SUPERHERO STOMP OUT ⚡ AT 5K!

Rhett, age 6

Track and Field Complex  
at Mylan Park  
1135 Fitness Wy  
Morgantown, WV 26501

Saturday  
June 22, 2024

## REGISTER AT [ATCP.ORG/RHETTS5K](https://atcp.org/rhetts5k)

Join #TeamRhett in our third annual 5K run/walk and kids' fun run to raise money for ataxia-telangiectasia (A-T) research. There will be vendors, fun activities, and more! Superhero costumes encouraged! Let's STOMP OUT A-T!

## REGISTRATION OPTIONS

All participants will receive a t-shirt if they register before May 1. Medals are only given to those participating in the 5K Run and Kids Fun Run. To receive your t-shirt or medal, you must register before May 1!

### 5K RUN – \$35 - Starts at 9:00 AM

Timed 5K. Participants will be given a t-shirt, medal and race bib with chip to track time.

### 5K WALK/ROLL 5K – \$25 - Follows the run at 9:00 AM

Untimed 5K. Participants will have the option to walk or roll. Participants will be given a t-shirt and unchipped bib. Medal is not included.

### KIDS FUN RUN- \$15 - Starts at 10:00 AM

1 lap around track with fun obstacles along the course. Participants will be given a t-shirt and medal. Unchipped bibs are not included.

### VIRTUAL 5K RUN/WALK- \$35 - Wherever/Whenever

Participate in a 5K run/walk anywhere! Participants will be mailed their event t-shirt. Medal and unchipped bib are not included.

## SPONSORSHIP OPPORTUNITIES ALSO AVAILABLE!

If you are interested in donating to our silent auction, volunteering or being a sponsor, please reach out to Megan at [rhetts5k@gmail.com](mailto:rhetts5k@gmail.com). Thank you for your consideration!

*Ataxia-telangiectasia (A-T) is a genetic disease that causes loss of muscle control and balance, cancer, lung disease and immune system problems in children and young adults, shortening their lives. The nonprofit A-T Children's Project partners with academic and industry investigators worldwide – organizing and supporting innovative research, conferences, clinical teams, data platforms and biomarkers – to optimize disease management strategies, develop new treatments and find a cure.*
